THE EELQMS
(European Engine Lubricants Quality Management System)
About the EELQMS

• Voluntary quality management system for engine lubricants - but ACEA requires marketers making claims to comply with EELQMS

• Developed by industry stakeholders to promote development of improved, fit-for-purpose engine lubricants that meet increasing technical requirements

• Gives consumers confidence about the quality of products

• Designed to assist lubricant marketers in assuring the quality of their lubricants and performance claims

ATIEL Code of Practice

QUALITY ENGINE LUBRICANTS
Summary of EELQMS

• The lubricant marketer is accountable for all aspects of product quality, to make valid performance claims to meet the ACEA European Oil Sequences.

• The European Engine Lubricants Quality Management System (EELQMS) is the only quality system for meeting ACEA requirements.

• The ATIEL Code of Practice guidelines support and assist lubricant companies to comply with EELQMS.

• ATIEL monitors quality compliance in the market and takes appropriate follow-up action where necessary via:
  • Provision of information and advice through website, training, webinars, presentations to enable lubricant companies to comply with EELQMS
